

**NITI Aayog**

**NITI Aayog and Bhartiya Shikshan Mandal**  
In collaboration with  
**IQAC Degloor College Degloor, Maharashtra**

Organise

*One Day Webinar on*

**National Research Foundation: Perspective,  
Prospectus and Implementation**

On

**Friday, 26.02.2021 at 11:00 a.m.**

Webinar Link - <https://meet.google.com/atp-rdvx-qow>

**Speaker**

**Dr. Ganesh Agnihotri**

**Principal, Pandit Jawaharlal Nehru College, Aurangabad**

**Chief Guests**

- **Shri Prakash Patil Bembekar (President, A.V. E. Society Degloor)**
- **Shri Shashikant Chidrawar (Secretary, A.V.E. Society Degloor)**

**Organising Secretary :**

**Dr. Anil Chidrawar**

**(I/c Principal, Degloor College, Degloor)**

**Dr. Prakash Kadrekar**

**(Vice-Principal)**

**Convener**

**Dr. L.H. Sudam**

**(Co-Ordinator, Internal Quality Assurance Cell)**

**Co-Convener**

**Dr. Vinay Bhogle**

**(Member, Internal Quality Assurance Cell)**

**Dr. Madhuri Deshpande**

**District Co-Ordinator**

**B.S.M. NEP Webinar**

**Dr. Sudhir Shivanikar**

**District President**

**Bhartiya Shikshan Mandal Nanded District**

### 04. Mrinmayee Agnihotri is presenting

- India has a long historical tradition of research and knowledge creation, in disciplines ranging from science and mathematics to art and literature to phonetics and languages to medicine and agriculture.
- This needs to be further strengthened to make India lead research and innovation in the 21<sup>st</sup> century, as a strong and enlightened knowledge society and one of the three largest economies in the world.
- Thus, this Policy envisions a comprehensive approach to transforming the quality and quantity of research in India. This includes definitive shifts in school education to a more play and discovery-based style of learning with emphasis on the scientific method and critical thinking.
- This includes career counselling in schools towards identifying student interests and talents, promoting research in universities, the multidisciplinary nature of all HEIs and the emphasis on holistic education, the inclusion of research and internships in the undergraduate curriculum, faculty career management systems that give due weightage to research, and the governance and regulatory changes that encourage an environment of research and innovation.
- All of these aspects are extremely critical for developing a research mindset in the country.

04. Mrinmayee Agnihotri is presenting

- Furthermore, in addition to their value in solutions to societal problems, any country's identity, upliftment, spiritual/intellectual satisfaction and creativity is also attained in a major way through its history, art, language, and culture.
- Research in the arts and humanities, along with innovations in the sciences and social sciences, are, therefore, extremely important for the progress and enlightened nature of a nation.
- 
- Research and innovation at education institutions in India, particularly those that are engaged in higher education, is critical.
- Evidence from the world's best universities throughout history shows that the best teaching and learning processes at the higher education level occur in environments where there is also a strong culture of research and knowledge creation; conversely, much of the very best research in the world has occurred in multidisciplinary university settings.
