**(Structure and Syllabus of Four Years Multidisciplinary Degree
Program with Multiple Entry and Exit Option)**

UNDER GRADUATE PROGRAMME OF HUMANITIES

Major in DSC Minor in DSM

Under the Faculty of Humanities

(Semester Pattern)

B. A. First Year

Semester I & II

With effective from Academic year 2024 – 2025

(As per NEP-2020)

Forward by the Dean, Faculty of Humanities

From the Desk of the Dean

To meet the challenge of ensuring excellence in undergraduate programme Humanities education, the issue of quality needs to be addressed, debated, and taken forward in a systematic manner. Accreditation is the principal means of quality assurance in higher education. The major emphasis of accreditation process is to measure the outcomes of the program that is being accredited. In line with this Faculty of Humanities of Swami Ramanand Teerth Marathwada University Nanded has taken a lead in incorporating philosophy of outcome-based education in the process of curriculum development.

Faculty of Humanities, Swami Ramanand Teerth Marathwada University Nanded, in one of its meetings unanimously resolved that, each Board of Studies shall prepare some Program Educational Objectives (PEO's) and give freedom to affiliated Institutes to add few (PEO's) and course objectives and course out comes to be clearly defined for each course, so that all faculty members in affiliated colleges understand the depth and approach of course to be taught, which will enhance learner's learning process. It was also resolved that, maximum senior faculty from colleges and experts from industry to be involved while revising the curriculum. We are happy to state that, each Board of studies has adhered to these solutions passed by Faculty of Humanities, and developed curriculum accordingly. In addition to outcome-based education, semester-based credit and grading system is also in traduced to ensure quality of education.

Semester based Credit and grading system enables a much-required shift in focus from teacher-centric to learner-centric education since the workload estimated is based on the investment of time in learning and not in teaching. It also focuses on continuous evaluation which will enhance the quality of education. Swami Ramanand Teerth Marathwada University, Nanded has taken a lead in implementing the system through its affiliated Institutes and Faculty of Technology has devised a transparent credit assignment policy and adopted ten points scale to grade learner's performance. Credit assignment for courses is based on 15 weeks teaching learning process, however content of courses is to be taught in 12-13 weeks and remaining 3-2 weeks to be utilized for revision, guest lectures, coverage of content beyond syllabus etc.

Credit and grading based system will be implemented for First Year of Humanities from the Academic Year 2024-2025. Subsequently this system will be carried forward for Second Year Humanities in the academic year 2025-2026, for Third Year and Final Year Humanities in the academic years 2026-2027 and 2027-2028 respectively.

**Dr. Parag Khadke, Dean, Faculty of Humanities,
Dr. Shailaja Wadikar, Associate Dean, Faculty of Humanities
Swami Ramanand Teerth Marathwada University, Nanded**

NOTE: - *Need to be modified following guidelines of NEP-2020 and its outcome and Overall improvement in Education system*

From Desk of Chairman, Board of Studies of the Subject Economics

The New Education Policy-2020, which is being implemented from the academic year 2023-24 in Swami Ramanand Teerth Marathwada University, Nanded, presents a significant opportunity to revolutionize the education sector. This policy encompasses numerous reforms in the educational framework, rules, and administrative system, aiming to achieve sustainable development in the country. Objectives of this policy are focused on building an efficient and robust educational system that places special emphasis on the skills of creative thinking, communication, cooperation, empathy, and self-confidence. The policy lays down fundamental principles for educational systems and institutions, instilling Indian values through the curriculum and pedagogy. Its implementation is expected to foster constitutional values and strengthen the bond between individuals and the country as we strive to become a global hub of knowledge generation. The importance of economics in today's world, driven by liberalization, privatization, and globalization, has necessitated a new national education policy to replace the traditional education system. The revised economics curriculum aligns with this policy, aiming to provide quality education, promote sustainable development, employment opportunities, environmental awareness, holistic development, human welfare, economic theory, statistics, mathematical economics, econometrics, financial policy, employment, and vocational skills among students. Additionally, it aims to impart knowledge of both Indian and Western economics, with the goal of not only creating job seekers but also nurturing entrepreneurs. The undergraduate syllabus for economics has been developed based on the National Education Policy-2020, with a student-centric approach that offers flexibility in terms of choice of disciplines, academic pathways with interdisciplinary combinations, multiple entry and exit points, and the ability to learn at one's own pace, to the extent possible. These steps are intended to provide quality education to all stakeholders.

As the Chairman of the Board of Studies in Economics at Swami Ramanand Teerth Marathwada University, Nanded, I am pleased to announce that the syllabus was finalized in a meeting attended by more than 9 members from different institutes, ensuring a collaborative approach.

Objectives:

1. To provide students with a strong foundation in economic fundamentals, enabling them to formulate, solve, and analyze economic problems and prepare them for graduate studies.
2. To equip students with the ability to identify, formulate, and solve problems in statistics, mathematics, and microeconomics.
3. To prepare students for successful careers in agriculture, tourism, farming, and agro-based industries.
4. To prepare students for successful careers in trade and business.
5. To develop entrepreneurship skills among students.
6. To foster financial literacy and management skills among students.
7. To provide opportunities for students to engage in research projects, training, and fieldwork.
8. To promote awareness among learners and introduce them to professional ethics and codes of professional practice.
9. To develop the ability to solve problems in microeconomics and macroeconomics.
10. To cultivate an understanding of contemporary economic issues and the impact of public and social policies in resolving them.
11. To develop the ability to identify, formulate, and solve problems related to global, national, and local socio-economic development.

Dr. Laxman Hanmantrao Patil, Chairman, Board of Studies of the Economics

General Guidelines for course structure:

1. The Major subject is the discipline or subject of the main focus and the degree will be awarded in that discipline /subject
2. Credits and curriculum for optional subjects are same in the first year .
3. In the first year students should choose three different subjects as optional subject in the same faculty .
4. From the second year curriculum of major and minor subjects is the different and student have to select major and minor from three optional subjects.
5. Generic /open elective is to be chosen compulsorily from faculty other than that of the Major.(select from Basket)
6. Vocational and skill enhancement courses (VSEC or VSC and SEC) are related to Major Courses (DSC).
7. Ability Enhancement Courses (AEC):
 - a) English language may be offered semester I for 2 credits and sem. III for 2 Credit in AEC.
 - b) Second languages may be offered sem. II for 2 credits and sem. IV for 2 credit in MIL.
8. Colum no.8 and 9 is common for all faculties .
9. Curriculum of VEC ,COI ,IKS and CCC will provide university.

Q.2. Descriptive Question (10 Marks)

Q.3. Descriptive Question (10Marks)

Q.4. Descriptive Question (10 Marks)

Q.5. Descriptive Question (10 Marks)

Q.6. Descriptive Question (10 Marks)

Total = 40 Marks

2 Credits (GE/SEC/AEC/IKS/CCetc.)

Note :

1. Question 1 shall be mandatory.
2. Students need to solve **Any Three** of the remaining Five Questions (Q. 2 to Q. 6) shall be based on entire Syllabus
 - 1) Write short notes (Any Two) (10 Marks)
 - i)
 - ii)
 - iii)
 - iv)
 - 2) Descriptive Question (10 Marks)
 - 3) Descriptive Question (10 Marks)
 - 4) Descriptive Question (10 Marks)
 - 5) Descriptive Question (10 Marks)
 - 6) Descriptive Question (10 Marks)

Total = 40 Marks

Guidelines for Course Assessment:

A. Continuous Assessment (CA) (20% of the Maximum Marks) :

This will form 20% of the Maximum Marks and will be carried out throughout the semester. It may be done by conducting **Two Tests and one Assignment**. Average marks scored in these two tests and one assignment of a theory paper will make C

B. End Semester Assessment (80% of the Maximum Marks) :

(For illustration we have considered a paper of 02 credits, 40 marks and need to be modified depending upon credits of individual paper)

1. ESE Question paper will consists of 6 questions
(each of 10 marks for 2 Cr. pattern.) BOS may change scheme of marking.
2. There will be 04 sub questions in Question No.1
3. Question No.1 will be compulsory and shall be based on entire syllabus.
4. Students are required to solve a total of 4 Questions.
5. Students need to solve ANY THREE of the remaining Five Question (Q.2 to Q.6) and shall be based on entire syllabus.

C. Assessment of Term Work/ Tutorial/ Field Works :

At least 06 test / assignments covering entire syllabus must be given during the ‘class wise tutorial’. The assignments should be students’ centric and attempts be made to make assignments more meaningful, interesting, and innovative.

Term work assessment must be based on overall performance of the student with every assignment graded time to time. The grades be converted to marks as per ‘credit and grading system’ manual and should be added and averaged.

D. Assessment of Community Engagement Services :

Students have freedom to take more than one CES courses, however, marks of the best performing CES be considered for final assessment. Assessment of the CES courses be done by the respective course coordinators depending on the performance of the student and his participation in the international, national, state, university, college level events or camps, wherever applicable. In other cases performance of a student be assessed depending on his/her regularity, participation in the regular activities in the semester.

Note : Number of lectures required to cover syllabus of a course depend on number of credit assigned to it. For example, for a two credit course, 30 lectures each of one hour duration are assigned, while that for a three credit course 45 lectures.

Paper Title : Indian Economy-I

Curriculum Details (for 02 credits)

Course pre-requisite :

Students should know about broad structure of the Indian Economy and inter sectorial relationship of the sectors of the Indian Economy. Student may broadly aware of issues before Indian economy. They must ready to know about recent policy changes and their effects on all sectors and sub sectors of the economy.

Course Objectives:

1. To provide information about types of economy and sectors of economy.
2. To endeavor to provide useful insights to the students about the present present economic standing and composition of the Indian economy, the major sectors and their relative importance in the Indian economy.
3. To make students aware of major challenges faced by the Indian Economy.

Course Outcomes :

At the end of the course the students should be able to :

1. Acquaint the students with structure of the Indian Economy and changes taking place therein.
2. Know the progress of Indian planning and policy frame work of Indian Economy.
3. Understand the problems of the Indian Economy i.e. , Unemployment, Poverty.
4. Get aware of challenges before Indian Economy and remedies for it.
5. Know about sector wise contribution in Indian Economy.
6. Able to formulate the strategy for the economic development in India.

**Paper Code : HECOCT1102, Title : Environmental Economics-I
Curriculum Details (for 2 Credits)**

Introduction:

Today, the rate of economic development is decreasing due to environmental degradation at the global level, and if the environmental degradation continues at the same rate, there is a fear that the rate of development will become negative. Therefore, the awareness of how important it is to conserve the environment at the global, national and state level has come to the government level. It is the need of the hour to become a people's movement and protect the environment. In order to realize that future citizens mean today's students, in economics in humanities faculty in higher education, environmental economics is given a special place, and the above paper is kept in the course, what is the relationship between economy and environment among students? By making the students aware of this, developing a holistic approach in the students for the environmental problems and the various issues arising from it, instead of exploiting the natural resources provided by nature, by conserving them, the awareness of how those resources can be used for the sustainable development of the economy comes to the students through the gradual course. This course has been designed in that regard.

Course Objectives:

1. Creating environmental awareness among students.
2. To familiar students with environmental problems and injuries on the environment.
3. To aware students for conservation of natural resources.
4. To generate self-awareness among students for environment protection.

Course Outcomes:

1. Students will have full knowledge of the interrelationship between economy and environment and students will love the environment.
2. By educating the students about the environmental issue, they become aware of what to do for environmental conservation.
3. Students understand the importance of natural resources in human life and economy.
4. Students realize the importance of environmental education and social awareness for environmental conservation.

Title: Computer Applications in Economics

Curriculum Details (for 2 Credits)

Course Prerequisites:

- Basic Knowledge of Statistics
- Knowledge of Basic Economic Concepts.
- Familiarity with fundamental computer operations and Microsoft Office Suite

Course Objectives:

- Understand and utilize basic MS Excel operations, formulas, and functions.
- Apply MS Excel for basic statistical analysis and data visualization in economics.
- Utilize sort and filter options in MS Excel for data manipulation and analysis.
- Implement conditional formatting in MS Excel for data highlighting and visualization.
- Develop skills for creating effective presentations in PowerPoint.
- Acquire proficiency in writing and formatting documents using MS Word.

Course Outcomes:

After study of this course, students will be able to:

- Perform basic operations and data manipulation in MS Excel, including formulas, functions, sorting, and filtering.
- Apply measures of central tendencies and basic statistical techniques in MS Excel for economic analysis.
- Create visualizations and charts in MS Excel to represent economic data effectively.
- Utilize conditional formatting in MS Excel to highlight and analyze data patterns.
- Develop professional presentations in PowerPoint to communicate economic information.
- Demonstrate proficiency in writing, formatting, and organizing documents using MS Word.

Title : Pioneers of Indian Economic Thought
Curriculum Details (for 2 Credits)

Introduction:

This enlightening course embarks on a remarkable journey through India's rich history, illuminating the economic ideas and actions of influential figures who have left an indelible mark on the nation's socio-economic landscape. From the timeless wisdom of Kautilya's "Arthashastra" to the contemporary insights of Amartya Sen and Abhijit Banerjee, this course delves into the multifaceted tapestry of India's economic thought and the visionary leaders who shaped it.

Prerequisites:

This course is open to learners from all backgrounds and levels of familiarity with economics, history, or Indian culture.

Objectives:

By the conclusion of this course, students will:

- Explore Kautilya's "Arthashastra" and its economic significance.
- Study Mahatma Basaveshwara's contributions to human capital development.
- Analyze economic principles of wealth, public finance, and welfare in Kautilya's teachings.
- Investigate Chatrapati Shivaji Maharaj's 17th-century economic strategies.
- Learn about Mahatma Phule's efforts to uplift marginalized sections and their impact on Indian agriculture.
- Understand Chatrapati Shahu Maharaj's socio-economic initiatives.
- Familiarize with Mahatma Gandhi's economic ideas.
- Examine Dr. Babasaheb Ambedkar's economic theories and principles.
- Comprehend Dr. Anna Bhau Sathé's perspectives on poverty, economic equity and other issues.
- Review the contributions of Amartya Sen and Abhijit Banerjee in economics.

Outcomes:

By the end of the course, students will be able to:

- Develop a foundational understanding of Kautilya's "Arthashastra."

- Appreciate Mahatma Basaveshwara's influence in human capital development.
- Master key economic principles from Kautilya's teachings.
- Acquire in-depth knowledge of Mahatma Basaveshwara's economic philosophy.
- Evaluate Chatrapati Shivaji Maharaj's 17th-century economic strategies.
- Recognize the transformative impact of Mahatma Phule's contributions.
- Understand socio-economic initiatives by Chatrapati Shahu Maharaj.
- Gain familiarity with Mahatma Gandhi's economic ideas.
- Analyze Dr. Babasaheb Ambedkar's economic theories and principles.
- Appreciate Dr. Anna Bhau Sathe's perspectives on poverty, economic equity, and other issues.
- Understand the contributions of Amartya Sen and Abhijit Banerjee to economics.
- Grasp Amartya Sen's capability approach and Abhijit Banerjee's work on anti-poverty programs.

Title : Environmental Economics-II

Curriculum Details (for 02 Credits)

Introduction :

For continuous economic growth, it has become a necessity of all economies to sustainable development. It is no longer possible to think of sustainable development without the environment. Therefore, for sustainable economic development, it has become necessary to decide economic policy and environmental policy keeping in mind the basic concepts of ecosystem, biodiversity, bio chain, ecological genera and develop sustainable agriculture industry from that policy. Due to the human attitude towards nature, the environment is degrading and all animal life is endangered along with human life. Eco-friendly economic development can be achieved through environmental protection. Environmental economics course is designed as an important branch of economics in the humanities department so that the consciousness of it comes in the students as future citizens and the student love the environment and respects the environment. From the said course, students get comprehensive knowledge about environment and sustainable development, indicators of sustainable development, difficulties in sustainable development, biodiversity, ecosystem, ecological genera, bio chain, natural agriculture, organic agriculture, biotechnology and student get inspiration for environmental conservation.

Course Objectives :

1. To make students understand the importance of environment in sustainable development.
2. To create respect in the minds of students for environment by studying the basic concepts of environmental science.
3. Development of agriculture by adopting environmentally friendly farming technologies and methods.
4. To understand the history of major movements in India for environmental protection.

Course Outcomes :

1. It will be realized that the development done by degrading the environment is dangerous.
2. Biodiversity ecosystem, ecological genera and bio chain will create self-awareness among the students and will inspire them to protect the environment.

3. Anti-environmentally sustainable agriculture provides motivation to avoid health effects on human health by practicing environmentally friendly agriculture.
4. Environmental movement inspires for environmental protection

Generic Elective

Under Graduate First Year Programme, Semester-

Course Code: HECOGE1151

Title of the Course : Economy of Marathwada

Curriculum Details (for 02 Credits)

Course pre-requisite :

1. Student must have passed XII class from Govt. recognized School/ College.
2. Student should have completed first Semester of under Graduate.

Course Objectives :

The Marathwada Region gained independence about one year late (September 17, 1956) to the rest of India. In 1953 Nagpur agreement was signed. According to the agreement was stated that the development of Marathwada and Vidarbha Region would be special measures compared to rest of Maharashtra, but today Marathwada still faces challenges. Therefore, the paper Economy of Marathwada is introduced for 2 Credits in the Generic/ Open Electives. The objectives of the course are as follows:

- To inform Students about the economic background and economic status of Marathwada Region.
- To make the students aware of the economic issues of Marathwada.
- To explain to the students the reasons behind low agriculture growth of Marathwada.
- Students should understand the condition of industrial development of Marathwada.
- Encourage students to consider potential solutions.

Course outcomes:

- Students will have gained a clear understanding of the actual causes behind the backwardness of the Marathwada Region.
- Students will understand the reasons behind the low agricultural development of Marathwada Region.
- Students will understand the reasons behind the stagnation / low growth of industrial and service sectors in Marathwada Region
- Students will debate and practice potential solutions for the development of Marathwada Region.

Title : Economics of Tourism

Curriculum Details (for 02 Credits)

Introduction:

The Economics of Tourism course provides an in-depth understanding of the economic aspects of the tourism industry. It explores the relationship between tourism and the economy, focusing on concepts such as demand, supply, marketing, and policy. This course aims to equip students with the necessary knowledge and skills to analyze and comprehend the economic dynamics of tourism at a local, national, and global level.

Prerequisites:

- Basic knowledge of economics and tourism principles.
- Familiarity with concepts such as GDP, market structure, and marketing principles.
- Understanding of tourism industry components and operations.

Objectives:

- Introduce fundamental concepts in the economics of tourism to develop a basic understanding of the industry's economic dimensions.
- Explore the relationship between tourism development and its impact on the national economy, emphasizing GDP contribution and the significance of tourism in India and Maharashtra.
- Analyze the demand and supply aspects of tourism, including types of tourism demand, determinants, and the meaning and market structure of tourism supply.
- Examine trends in tourism supply, considering evolving consumer preferences, technology advancements, and sustainability concerns.
- Explore tourism marketing strategies, with a focus on e-marketing, customer satisfaction, and addressing challenges in the tourism industry.
- Provide insights into tourism policy and planning, including investment opportunities, government policies, and the significance of the National Tourism Policy of 1985 and 2002.

- Highlight the importance of travel documentation, including passport, visa, health certificates, and travel insurance requirements for tourists.

Outcomes:

By the end of the course, students will be able to:

- Understand and explain the economic aspects of tourism, including its meaning, scope, and various types.
- Recognize the contribution of tourism to the national economy, specifically its impact on GDP and its importance in India and Maharashtra.
- Analyze tourism demand, identify different types of tourism demand, and comprehend the determinants influencing tourism demand.
- Define and discuss tourism supply, comprehend its market structure, and understand trends shaping the supply in the tourism industry.
- Gain knowledge about e-marketing in tourism, including its introduction, meaning, and its role in promoting tourism products and services.
- Identify and evaluate customer satisfaction strategies employed by airlines, hotels, resorts, homestays, travel agencies, and online reservation systems.
- Understand the challenges faced in e-marketing within the tourism industry and develop strategies to overcome them.
- Comprehend the importance of tourism policy and planning, including investment opportunities and government policies related to the economics of tourism.
- Familiarize themselves with the National Tourism Policy of 1982 and 2002, recognizing its significance in shaping the tourism industry.
- Acquire knowledge about travel documentation requirements, including passports, health certificates, and travel insurance for tourists.
